

SERVICES

24/7 ON CALL SUPPORT

- **Stocking Programs** - ESR offers stocking programs for OEM and MRO customers ensuring critical motors are always in stock and delivered on time.
- **Volume Pricing Agreements** - We can provide volume pricing for OEM's and large MRO customers.
- **Same Day Delivery** - Same day delivery is available when you need a motor fast.
- **Training** - We offer in-house and on-site training classes covering ASD operation, AC motor theory, DC motor theory, carbon brush troubleshooting, and maintenance best practices.
- **Motor Survey/Stock Room Review** - ESR can identify and catalog motors in your plant and/or stock room to enable easier ordering, optimize inventory levels, and/or conduct an energy efficiency audit.
- **Carbon Brush Survey** - ESR can identify and catalog carbon brushes in your plant to enable easier ordering and to catch and fix brush problems before they become motor failures.
- **OEM Product Substitution** - We can cross expensive OEM motors and brushes over to an equivalent version from another manufacturer to save you money.
- **Repair vs. Replace Analysis** - We can evaluate your operation to assist you in determining the most cost effective throwaway point for failed motors.
- **ASD Startup, Troubleshooting, & Repair** - Our factory trained drive technicians are available to help with startup, system management, troubleshooting, and repair.
